DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 4 are allowed.
2. The following is an examiner's statement of reasons for allowance: the record of prior art does not show a stator generator having a magnet rotor, a stator, batteries, drivers, an inverter, a controller with each driver includes a polyphase rectifier circuit that is constituted by a bridge circuit of diodes, and rectifies an AC voltage induced in the corresponding armature coil to supply the AC voltage to the corresponding battery; and a polyphase switch circuit that is constituted by a bridge circuit of switch elements, each switch element being connected in anti-parallel to the corresponding diode that forms said polyphase rectifier circuit, said controller includes a driver control unit that flows drive currents to said second armature coil and said second armature coil from said first battery and said second battery through the polyphase switch circuits in said first driver and said second driver, respectively, so as to rotate said magnet rotor in a direction of starting said internal combustion engine, when said internal combustion engine is started, and controls the polyphase switch circuits in said first driver and said second driver so as to keep, at a value equal to or less than a set value, DC voltages supplied to said first battery and said second battery from said first armature coil and said second armature coil through the polyphase rectifier circuits in said first driver and said second driver, after said internal combustion engine is started; and an inverter control unit that controls said inverter so as to output an AC voltage at a desired frequency from said inverter, and said first battery and said second battery are connected in series or in parallel according to an effective value of the AC voltage output from said inverter and are connected between DC input terminals of said inverter.

Art Unit: 2834

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
